The Scientific American Supplement Index for Vol. 86

JULY—DECEMBER 1918

THE * INDICATES THAT THE ARTICLE IS ILLUSTRATED

A

Abrasive, Corindite, A Refractory and ... 368
Absorption and Phosphorescence ... 277
Acetylene Silver ... 336
Acetylide, Silver ... 179
Acid, Concentration of Sulphuric ... 239
Acid, Nitric from Nitrogen Oxide ... 245
Accidents, Factors in Causation of Industrial ... 107
Acclimatization, A Test in ... 269
Action of Iron Oxide on Silica Bricks ... 368
Aeronautics, Meteorology and ... * 12
Aeronautics, Meteorology in Relation to ... I, 351; II, 366
Aeronautics, Modern ... I, 130; II, 150
Aeroplane Construction, Metals Used in ... 262
Aeroplane Design, German ... 121
Aerolites, Photographic Spectra of ... 155
Africa, Canoes of East ... 170
Africa, Cosmology Among the Natives of South ... 339
African Timber, Value of Recognized ... 83
Agriculture, Electricity in ... 19
Agriculture, The Relation of the Weather to ... 354
Air, Currents in the Upper ... 61
Air Use, Instruments for ... 285
Aircraft, Protection Against ... 244
Aircraft, Machine Guns for American ... 39
Airships in the Future of Aeronautics, Position of ... 407
Aland Islands, The ... *43
Alimentary and Economic Value of the Jerusalem Artichoke ... 16
Alcohol from Horsechestnuts ... 73
Alloys, The Ferro- ... 342
Alsation Potash Deposits, The ... 233
Aluminum Alloy, A New ... 285
Aluminum Bronze, Die-Casting of ... 314
Aluminum, The Alterability of ... 127
Aluminum, The Chemistry and Metallography of ... 233
Ammonium Nitrate from Coal Gas ... 231
Analysis by a Magnetic Process, Chemical ... *381
Ancient Cart-Ruts in Malta ... 288
Ancient Flint Implements, The Relationship of the Most ... *28
Animal Camouflage ... 5
Animal Food, Peanut Oil Cake for ... 32
Animal Life at the Front ... 19
Animal, Plant or ... *149
Animals, Structure of the Skeleton in Invertebrate ... 386
Animal Weather Prophets ... 187
Animals, Why They "Play Dead?" ... 290
Animus of German Scientific Men, The ... 356
Anomalies of the Animal World, *XII, 84; *XIII, 237; *XIV, 404
Antarctica, Bacteria in ... 242
Anthropological Misconceptions, Some ... 325
Anthropology as a Corrective of Provincialism ... 171
Antidiffusion in Radiography ... 413
Antimony Smelting, Use of Converture in ... 236
Ant Pests and Ant-Eating Animals ... 48
Ant, The White ... 360
Ants, A Silky Eater of ... *340
Ape, An Educated ... 56
Aphides, Destroying ... 183
Apos. vs. Achros ... 183
Apple, The Golden ... 5
Apple Jelly, Cider ... 282
Arch, A New Type of Iron-Concrete ... 184
Are You Collecting Sphagnum? ... *308
Army Rations ... 86
Army, Respiratory Diseases in the ... 320
Art Treasures of Venetia, Rescuing the ... I, *24; II, *40
Artichoke, Alimentary and Economic Value of the Jerusalem ... 16
Astronomical Day, The Commencement of the ... 204
Atmosphere, Ultra-Violet Transparency of the Lower ... 107
Atmospheric and Oceanic Temperatures, Changes in ... 42
Atomic Weights, Variable ... 66
Auro a, The ... *132
Automatic Gun, The Madsden ... *108
Automatic Lighthouses ... 117
Aviation and the War ... 389
Azide, Lead ... 195

B

Backing Photographic Plates ... 307
Bacteria, Effect of Silver on ... 189
Bacteria in Antarctica ... 242
Bacteria in Milk, How Counted ... 122
Bacteriology of the "Spanish Influenza" ... 249
Ballistics, Internal ... 71
Balloon Fabrics, The Permeability of ... 115
Banish the Barberry ... *76
Barbed Wire, Collecting by Machine ... 247
Barberry, Banish the ... *76
Barge Fleet, A Mississippi ... 333
Batik Dyeing Process ... 378
Batteries, Method of Treating Electrodes of Primary ... 265
Bean Varieties, Soy ... 144
"Bears," Blast Furnace ... 27
Bellringing, Carillons—The Art of ... *301
Big American Guns in France ... 330
Big Things in Steel ... *56
Bio-Chemical Characteristics of Species, The ... 322
Biplane, The Zeppelin ... I, *316; II, 334
Bird Cult of Easter Island ... 21
Bird Life of a Big City ... 3
Birds, Where Our, Come from ... 37
Blackdamp, Origin of ... 187
Blast Furnace Bears ... 27
Blast Furnaces, Fuel Economy in ... 95
Blue of the Sky, The ... 174
Bohr's Theory of the Hydrogen Spectrum ... 220
Bombs, Luminous Rockets and ... *252
Bomb-Throwing Gun, The Stokes, I, *212; II, *228
Books and Papers Injured by Fire, Restoring ... 165
Botulism in London ... 61
Bread, War ... 7
Break, How Things ... I, *248; II, *264
British Canal System, The ... 103
Bromides, Bad ... 149
Bricks, Action of Iron Oxide on Silica ... 368
Bricks from Blast Furnace Slag, Paving ... 266
Bridges of the World, The Principal, I, 286; II, 294
British Front in September, A Visit to the ... *344
Bronze, Die-Casting Aluminum ... 314
Brownian Movement ... 216
Brownian Movement, Theory of ... 230
Brush-Making Fibers ... 205
Bulb Growing in the United States ... *36
Bullets, Explosive, Expansive and Perforating ... *332

C

Cables, Maintaining Ocean Telegraph *388
Cadmium as a Tin Substitute in Solder ... 379
Camera for Photographing Solar Eclipses, Usefulness of a "Movie" for ... 413
Camouflage, Animal ... 5
Canal System, The British ... 103
Cancer, Skin ... 25
Canoes of East Africa ... 170
Carbide as a Propellant ... 240
Carbone Method of Retting Textile Plants ... 147
Carbonization of Coal, Low Temperature ... 254
Carbonization of Wood in Gasworks ... 192
Carillons—The Art of Bellringing ... *301
Cart-Ruts in Malta, Ancient ... 288
Caschardening, Chilling and ... 247
Case Hardening and Oil Hardening ... 277
Cashew Nut Tree, The ... 221
Cast Iron, The Addition of Steel to ... 235
Casting of Aluminum Bronze, Die ... 314
Casting Aluminum-Bronze, Die- ... 314
Castings, Manufacture and Use of Die ... 26
Castor Oil Plant, The ... 47
Catalytic Hydrogenation of Oils, Influence of Carbon Monoxide on the Velocity of ... 294
Cave Men, Modern ... *216
Cellulon, A New Wood Pulp Fiber ... 71
Cement and Plaster, Mechanism of the Setting Process in ... 234
Channel Ferry, Proposed Cross- ... 176
Changes in Oceanic and Atmospheric Temperatures ... 42
Charms Against Earthquakes ... 67
Cheese, Soy Bean ... 192
Chemical Analysis by a Magnetic Process ... *381
Chemical Abstracts in Germany, Coordination of ... 293
Chemical Composition and Heat Treatment of Iron Alloys on Their Magnetic Properties, etc., Influence of ... 176
Chemical Industries, Cotton Seed Products and the ... 153
Chemical Stoneware, Standardization of ... 53
Chemical Utilization of Seaweed ... 325
Chemistry and Metallography of Aluminum ... 233
Chemistry of the Silicates ... 14
Chilling and Caschardening ... 247
China, Iron and Steel in ... 219
Chloropicrin ... 259
Choice of a Lens, The ... 330
Chocolate and Cocoa ... *232
Chromic Acid and Hydrogen Peroxide as an Etching Agent, The Use of ... 136
Cider Apple Jelly ... 282
Circle into Degrees, Optical Method for Dividing ... *188
Civilization, Heredity, Environment and ... 210
Coal and Cult of the Skin ... 245
Coal Burned in Marine Boilers Without Smoking, How Can Soft be? ... 137
Coal, Dellwik Process for Completely Gassifying ... 377
Coal-Dust Explosions in Mines, Prevention of ... 189
Coal Gas, Ammonium Nitrate from ... 231
Coal, How to Economize ... 6
Coal in Gas Making, Substitutes for ... 185
Coal, The Low Temperature Carbonization of ... 254
Coal, A New Method of Separating Slate from ... *348
Coal, The Possibilities of Powdered ... 62
Coal, Sulphur and the Spontaneous Combustion of ... 274
Coal Used by Railroads ... 381
Coke, Steam from ... 115
Color and Their Bearing on Photographic Work, Some Peculiarities of ... 69
Color in Modern Warfare, An Aspect of Light, Shade and ... 231
Color, The Psychology of ... I, 114; II, 134
Color Vision, A Theory of ... *92
Colored Photographs, Uvachromie, A Method of Producing ... 315
Cometary Visitor, A Frequent ... *69
Concrete Ship Problem, The ... *20
Concrete Trestles, Reinforced ... *324
Cocoa, Chocolate and ... *232
Cocoanut Oil, Methods for Production of Pure ... 203
Cognacs and Wine Distillates, Composition of ... 232
Coffee Industry, Side Lights on the ... *168
Coins of the Central Powers, War ... 202
Contact Insecticides ... 142
Co-ordination in Munition Work ... 146
Copper-Base Bearing Metals ... 406
Coronas, Recent Observations on Solar ... 199
Corindite, A New Refractory and Abrasive ... 368
Copper, Hardening ... 149
Cork Slabs from Cork Wastes ... 311
Corn Cobs, Preparation of Xylose from ... 400
Corn Is King ... 106
Cosmology Among the Natives of South Africa ... 339
Cotton Has Come into His Kingdom, King ... *292
Cotton Seed Products and the Chemical Industries ... 153
Cotton Seed Products, Some ... 382
Couverture in Antimony Smelting, Use of ... 236
Creosoted Fir for Marine Construction, Use of ... 263
Creosoting Lumber, A New Method of ... 167
Crocuses and Daffodils, Doubling of ... *244
Cross-Hairs for Optical Instruments ... 71
Crystals, Liquid ... 379
Currents in the Upper Air ... 61
Cyclones and Method of Foretelling Them, the Theory of ... *300
Cutting Glass Discs, Method for ... 32

D

Daikon, The ... *277
Damascene Steel ... 275
Day, Commencement of the Astronomical ... 204
Daylight Seeing ... 9
Deck Sheathing ... 163
Definition of Valency ... 390
Densities in Gaseous Mass, The Law of ... 331
Destruction from the Sky ... *356
Determination of Stellar Distances, The ... 306
Developing Agents, The Examination of Organic ... 398
Development of the Image in a Dry Plate Negative, Mechanism of ... 249
Diamond, The ... *124
Diagrams, Electric Power ... *284
Die-Casting of Aluminum-Bronze ... 314
Die Castings, Manufacture and Use of ... 26
Diesel Engines, Four Cycle versus Two Cycle ... 307
Diesel Engines, Tar Oil in ... 406
Dietaries, Statistical Studies of ... 414
Dillwik Process for Completely Gassifying Coal ... 377
Dinosaurs, Function of the "Sacral Brain" in ... 394
Diseases in the Army, Respiratory ... 320
Diseases, The Prevention of Lice-Borne ... 219
Disinfection Process for Ships, New ... 119
Dogs as Carriers and Draught Animals, A Study of ... *296
Dog Goes to War, When the ... 311
Doppler Principle, The ... 269
Doubling of Crocuses and Daffodils ... *244
Dove of War, The ... *276
Drawbridges, Attain Great Weights and Spans, Modern ... 112
Drilling Gas and Oil Wells ... 11
Drugs and Poisons of Animal Origin ... 238
Dumping of Government Property, The ... 325
Dust Inhalation in Mines ... 119
Dyeing Process, Batik ... 378

E

Early History of the Solar System, The ... 359
Earthquakes, Charms Against ... 67
Easter Island, Bird Cult of ... 21
Eclipse of June 8th, 1918, The Total Solar ... *220
Eclipses, Usefulness of a "Movie" Camera for Photographing Solar ... 413
Economy in England, National ... *136
Eggs, Liquid Ostrich ... 202
Eggs, Millions Produced in This Country Feed No One ... 219
Elastic Properties of Steel, Cold Working on the ... 128
Electric Arc Welding in Shipbuilding ... 230
Electric Discharges, Light Emission of Gases and Gas Mixtures by ... 319
Electric Generating Stations, Transmitting Signals between ... 325
Electric Generator, A 50,000 K. W. Turbo- ... 91
Electric Incandescent Lamps, Crystals in Filament Form in ... 281
Electric Power in Lancashire ... 176
Electric Power Diagrams ... *284
Electric Safety Code, The National ... 23
Electrical Industry in America, The ... 194
Electricity in Agriculture ... 19
Electricity in Medicine ... 30
Electricity, Plant Stimulation by ... 192
Electricity Recovering from Traction Lines ... 152
Electrodes of Primary Batteries, Method of Treating ... 265
Electrochemical Means, Synthetic Gasoline by ... 320
Electron, Radiation and the, I, *60; II, 74
Electrolytic Iron and Nickel-Iron ... 298
Electrolytic Production of Hydrogen and Oxygen, Zorzi System of ... 221
Electrolytic Recovery of Tin ... 35
Electrolysis Mitigation ... I, 46; II, 58
Emulsoids, The Gelation of the Natural ... 154
Engines, Four-Cycle Versus Two-Cycle Diesel ... 307
Engine, The Heavy Oil ... I, 50; II, 78
Engines, High-Speed Internal Combustion ... 270
Engines in the Automotive Field, Steam ... 214
Environment and Civilization, Heredity ... 210
Etching Agents, Use of Chromic Acid and Hydrogen Peroxide as ... 136
Ether Ball, The (Correspondence) ... 331
Ether, Relations of Matter and ... 75
Evolution and Destruction of Life, The ... 266
Eulachon, The, A Delicious Food Fish ... 335
Eye, Sensibility of, to Light of Different Colors ... *301
Examination of Organic Developing Agents, The ... 398
Explosions of Coal-Dust in Mines, Prevention of ... 189
Explosive, Expansive and Perforating Bullets ... *332
Explosive, Lead Azide, A Powerful ... 195
Explosive, Oxyliquite ... *268
Explosives, Super- ... 45
Exhaust Valve Troubles ... 6
Extraction of Potash from Kelp ... 336

F

Fabrics for Powder Bags, Chemically Treated ... 261
Fabricated Ship, The ... 57
Fabrics for Powder Bags, Chemically Treated ... 261
Fabricated Ship, The ... 57
Factors in Causation of Industrial Accidents ... 107
Factors Influencing the Spread of Parasites ... 135
Farming for Pleasure and Profit, Game ... 90
Fermentation, Influence of Air Pressure on ... 189
Ferro-Alloys, The ... 342
Ferry, Proposed Cross-Channel ... 176
Fertilizer, Water Hyacinth as a ... 75
Fever, The Infectivity of Trench ... 27
Fibers, Brush-Making ... 205
Fiber Plant, Mexican Nettle as a ... 284
Filaments for Glow Lamps, New Process for Manufacture ... 183
Films, Ancient Methods of Stripping ... 135
Films, Liquid ... 203
Films, The Use of Soap ... *140
Filters, Theory of Action of Sand ... 244
Fir in Marine Construction, Use of Creosoted ... 263
Fire, Restoring Books and Papers Injured by ... 165
Fish Isinglass and Fish Glue ... 38
Fish, The Eulachon, a Delicious Food ... 335
Fishes, How They Were Named ... 341
Fixing Photographic Prints without Hypo ... 326
Flames through Tubes of Small Diameter, Propagation of ... 381
Flint Implements, The Relationship of the Most Ancient ... *28
Fluorides as Timber Preservatives ... 375
Fodder, Treatment of Straw for Preparation of ... 227
Fog in Photographic Negatives, Marginal ... 56
Food Fish, The Eulachon, A Delicious ... 335
Food of Jelly-Fishes, The ... 333
Food, Peanut Oil Cake for Animal ... 32
Food Shortage and High Prices ... 346
Food, Soy Beans Make Valuable ... 8
Four-Cycle Versus Two-Cycle Diesel Engines ... 307
Forgings, Quenching Large ... 266
Freedom of the Rhine, The ... 215
French Soldiers, Shoes for the ... *184
Freight Cars and Locomotives, Standardization of ... 261
Frogs, South American ... 196
Fruit, Laundry Dries ... 233
Fuel Economy ... 123
Fuel Economy in Blast Furnaces ... 95
Fuel in Canada, Peat ... 57
Fuel for Internal Combustion Engines, Crude Naphthalene as ... 205
Fuel, Peat as a ... 47
Fuel, Pitch as a ... 155
Fuels, Low Grade ... 191
Fuels, Relative Efficiency of ... 391
Full-Sized Ship Experiments ... 395
Function of the "Sacral Brain" in Dinosaurs ... 394
Furnaces for Munitions ... 274

G

Game Farming for Pleasure and Profit ... 90
Garden Operations, Destroying Aphides and other ... 183
Gas, Ammonium Nitrate from Coal ... 231
Gas Making, Substitutes for Coal in ... 285
Gas and Oil, The Movement of through Rocks ... 374
Gas and Oil Wells, Drilling ... 11
Gas-Film Theory, Heat Conduction and the ... 357
Gas Used for Lighting at Pisa, Natural ... 96
Gas Warfare, from Savages, Germans Learned Poison ... 265
Gasworks, Carbonization of Wood in Varta ... 192
Gases and Gas Mixtures, Light Emission of by Electric Discharges ... 319
Gases, Inflammability of Mine and Industrial ... *236
Gaseous Mass, Law of Densities in ... 331
Gasoline, Synthetic by Electrochemical Means ... 320
Gazebos ... *260
Geese as Flesh-Producers ... 123
Gelation of the Natural Emulsoids ... 154
Geological Structure in Relation to Magnetic Disturbances ... 77
German Aeroplane Design ... 121
German Cunning ... 39
German Scientific Men, The Animus of ... 346
German Submarine Designs ... 218
Germans Learned Poison Gas Warfare from Savages ... 265
Germany, Substitutes for Deficient Metals in ... 176
Germany, Waterpower in ... 240
Gibraltar Straits Tunnel, The ... 53
Glass Discs, Method for Cutting ... 32
Glass-Making Processes, Significance to the Petrologist ... *221
Glass, Substitutes for ... 283
Glass, Selenium as a Decolorizing Agent in ... 416
Glow Lamps, Manufacture of Filaments for ... 183
Glue and Isinglass, Fish ... 38
Golden Apple, The ... 5
Government Property, The Dumping of ... 325
Grain of Wood, The ... *156
Grapevine Branches, Industrial Use of ... 30
Grapevine Parasites and Their Treatment ... 15
Grapevine Parasites, Sulpho-Calcic Solution for ... 171
Gravitation ... I, 2; II, 22
Gravitation ... 141
Green Leaf, The ... 36
Guns in France, Big American ... 330
Guns for American Aircraft, Machine ... 39
Gun, The Madsden Automatic ... *108
Gun, The Stokes Bomb-Throwing I, *212; II, *228
Guns, The Making of Monster ... 23

H

Haematoxylon Africanum ... 91
Hail, A Kashmir Barrage of ... 55
Half-Tone Work, Printing Ink for ... 139
Hardening, Case Hardening and Oil ... 277
Hardening Copper ... 149
Hardness and Viscosity of Varnish ... 383
Hats for Our Doughboys, Making ... *360
Haystacks, New Theory of the Spontaneous Firing of ... 64
Heredity, Environment and Civilization ... 210
Health Problem, Pneumonia as a Public ... 346
Heat Conduction and the Gas-Film Theory ... 357
Heat Insulating Material, A New ... 119
Heat, Storing ... 388
Heat Treatment of Steel ... 32
Heavy Oil Engine, The ... I, 50; II, 78
Heliograph, The Use of the ... 141
Helium, Preparation of ... *173
Highways, Relation to Freight Transportation ... 18
High-Speed Internal Combustion Engines ... 270
Hiring Men, Waste in ... 74
Holland Seeks a New Province ... *393
Home in India, The ... 283
Home-Made Telescope, A ... 54
Horsechestnuts, Alcohol from ... 73
Horse-Power, Definition of ... 92
Horse Skeletons, An Instructive Series of ... 59
How Fishes Were Named ... 341
How Things Break ... I, *248; II, *264
Hyacinth as a Fertilizer, Water ... 75
Hydrogen and Oxygen, Zorzi System for Electrolytic Production of ... 221
Hydrogen Spectrum, Bohr's Theory of the ... 220
Hydrogenation of Oils, Influence of Carbon Monoxide on the Velocity of Catalytic ... 294
Hysterical Symptoms in Soldiers, The Rapid Cure of ... 304

I

Ignition Magneto Construction ... *364
Implements, The Relationship of the Most Ancient Flint ... *28
Incubator, A Jungle ... 82
India, The Home in ... 283
India, Naming Mountains in ... 350
Indian Medicines ... *100
Industrial Accidents, Factors in Causation of ... 107
Industrial Use of Grapevine Branches ... 30
Infectivity of Trench Fever, The ... 27
Inflammability of Mine and Industrial Gases ... *236
Influenza, Bacteriology of the Spanish ... 249
Influenza Epidemic, The ... 343
Influenza, Sandfly Fever or ... 300
Injured Soldiers, Mechanotherapy to Aid ... *152
Ink for Half-Tone Work, Printing ... 139
Insects Helpful to Man ... 58
Insects in the Primitive Era, Life of ... 158
Insects, The Photography of ... 91
Insects, Scent Producing Organs of ... 200
Insects, A Study of the Proteins of Certain ... 31
Insecticides, Contact ... 142
Instruments for Air Use ... 285
Insulating Material, A New Heat ... 119
Intensification of Flat Negatives ... 328
Internal Ballistics ... 71
Internal Combustion Engines, Crude Naphthalene as Fuel for ... 205
Internal Combustion Engines, High-Speed ... 270
International Bureau of Weights and Measures ... 180
Inventions and Discoveries, No Limit to ... 93
Invertebrate Animals, Structure of the Skeleton in ... 386
Iron Alloys, Influence of Chemical Composition, Heat Treatment on Magnetic Properties, etc ... 176
Iron and Steel in China ... 219
Iron-Concrete Arch, A New Type of ... 184
Iron and Nickel-Iron, Electrolytic ... 298
Iron Ore in Europe, Shortage of Non-Phosphoric ... 358

Iron Oxide on Silica Bricks, Action of 368
Iron, Oxygen in 393
Iron, Paint from 37
Ironing Out Cracks in Iron 48
Irrigation in Mesopotamia 21
Isinglass and Glue, Fish 38
Isopiestic Solutions 220
